

# Privacy Policy

Dear user,

Your privacy is important to Sineng and its global affiliated companies (hereinafter referred to as "we", "us", or "our"). We strive to ensure that our products comply with all effective data protection acts currently available.

The Power Insight App will collect your information when you use this App. The Power Insight App is operated by Sineng and its affiliates. This Privacy Policy applies to the information collected and used by this App.

**Please note that it is totally up to you whether to install or use this App on your personal device. If you download, install, and use the Power Insight App, it indicates that you have fully understood and agreed to all terms of this Privacy Policy. Otherwise, do not download, install or use this App.**

We develop this Privacy Policy that covers how we collect, use, disclose, protect, and store your information. Please take a moment to familiarize yourself with our privacy practices.

1. What information the App collects and processes
2. How the App uses such information
3. How the App discloses your personal information
4. How the App protects your personal information
5. How the App stores your personal information
6. How the Privacy Policy is updated
7. How to contact us

1. What information the App collects and processes

When you use the Power Insight App to connect the device through WIFI, the App must access and change the WIFI status, access and change the network status, and require the location service permission of your mobile phone due to the technical reasons. All the information is only used to search the device using WIFI, not stored in a local or remote server, and the App won't get the location information from your mobile phone.

When you use the Power Insight App to connect the device through Bluetooth, the App must invoke the Bluetooth connection function provided by your mobile phone operating system, but will not collect the Bluetooth pairing information on your mobile phone.

The Power Insight App data export functions allow you to export data from device. The functions will invoke the screen wake-up function provided by your mobile phone operating system to ensure that the screen is light up during the long-time operation. However, the functions will not collect the information about the screen operations on your mobile phone.

The Power Insight App saves the data exported from the device in the external storage. This functions will invoke the storage card accessing function provided by your mobile phone operating system, but will not collect the information in your storage card.

The Power Insight App uses the web services provided by your mobile phone to verify your account information, and do not apply the network to do anything else.

Most mobile platforms (such as IOS and Android) have been designed in such a way that the App cannot access certain types of device data or invoke some functions without your consent. In addition, these platforms have various permission systems to obtain your consent. For example, when the App attempts to gain access to a particular permission for the first time, the IOS platform will prompt you to agree (or disagree) on this request. Before you use the App for the first time, an Android device will inform you the permissions requested by the App, and that your use of this App indicates that you agree to grant the permissions.

## 2. How the App uses such information

This App collects information to deliver a secure, smooth, and effective user experience customized for you. This App will collect and use or authorize a third party service provider to collect and use your personal data only with consent and as necessary to achieve the following purposes:

- Provide you with the function of connecting and logging in to the Power Insight App.
- Verify your login account.
- Improve user experience and service quality.
- Comply with all applicable laws and regulations and respond to relevant legal procedures.
- Protect the intellectual property rights, information assets, and other property and rights of the Power Insight App.

## 3. How the App discloses your personal information

Unless for the compliance with applicable laws, this App will not sell, rent, transact, or transfer your personal data in any other way to third parties without your explicit consent.

#### 4. How the App protects your personal information

This App adopts reasonable security measures (including but not limited to physical, technical, and regulatory measures) to protect your personal information from unauthorized browsing, disclosure, misuse, alteration, corruption, and loss, and continuously improves these security measures to protect the security of your personal data. **However, you should know that no security measure is impeccable.**

#### 5. How the App stores your personal information

5.1 This App will store your configured personal information when necessary to meet all purposes stipulated in this Privacy Policy.

5.2 As Sineng is a global company, the personal information collected by this App may be stored and processed by resources and servers in China or other countries or regions. Therefore, your personal information may be transmitted to a country or region which is different from the country or region where you use our services. The country or region to which information is transmitted may not have personal data protection laws or legal protection may not be as sufficient as that in your country of residence. In this case, we will take appropriate measures to protect your personal information according to the Privacy Policy.

#### 6. How the Privacy Policy is updated

The Privacy Policy of the App may be modified or updated at any time. We will inform you of any major modification or update through feasible channels and methods. You are encouraged to access this Privacy Policy anytime to know the latest changes.

#### 7. How to contact us

If you have any questions, concerns, or suggestions about this Privacy Policy, please email [niupengchao@si-neng.com](mailto:niupengchao@si-neng.com).
